PROFILE

To establish myself as a Front-end Developer in different local and international markets by offering the value/benefit of Brand, Visualization, and Promotion. Eager to contribute creativity and technical skills to dynamic projects through responsive and visually appealing web interfaces. Want to establish myself as a Sr. Web Developer within 4-5 years.

Technical Skills

Front-End Technology: HTML, CSS, Sass, Bootstrap, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS.

Backend Technology: PHP, Laravel, MySQL, Firebase. (Basics of Node.js, Express.js, MongoDB)

- Git, VS Code, Figma, Postman, React Testing Library
- Responsive Design, REST API Integration, SEO Optimization

Soft Skills

- Problem Solving
- Communication
- Team Collaboration
- Time Management

Projects:

E-commerce Website ([live-link](#)):

- Next.js, Redux, localStorage, Tailwind CSS (All necessary React.js packages).
- Dynamic Routing, SSR, Unlimited Products.
- User login, registration, product add to cart, price calculation, product checkout. Dynamic content load, API Integration.

Chatting-Application ([live-link](#)):

- Next.js, Redux, localStorage, Tailwind CSS (All necessary React.js packages)
- User login, registration, user name update, profile photo update, friend request sent, accept, reject, block, live chatting

I have created a dynamic blog application using Laravel with React.js and the application can be controlled from the admin dashboard. This is done through complete API integration.
